

MASSACHUSETTS AGRICULTURAL COLLEGE.

AGRICULTURAL DEPARTMENT AND COLLEGE FARM.

WM. P. BROOKS.

Amherst, May 4th, 1891

My dear sister:

Pa's letter and postal both duly received. Sorry the bus would not sit; and doubly sorry to hear that Mat is feeling so poorly. Don't you think you had better come out and pay me a visit. We should be delighted to see you. Really I think you ought to come, for change of season will help you more than anything else I am sure. You can save your way, if you visit by helping in the care of my poultry, (I have about one hundred chickens) and doing writing &c. in so far as the work agrees with you. The College Commencement this year is June 10th. You would enjoy being here then.

The basket was received in due season. I thought my letter would reach you before the basket left Brockton.

With love and hoping to see you or both soon,  
Will
