Dear Friend:

I was told yesterday by one of Dr. Studebaker's assistants that he would appreciate letters from important people being sent to President Roosevelt or Mrs. Roosevelt in regard to the radio program, "Americans All - Immigrants All", which is being presented over the Columbia Broadcasting System Sunday afternoons at two o'clock.

Several stories have come to us as to the positive effect of these programs in reducing prejudice. The broadcasts are being carried over seventy-nine stations of the Columbia Broadcasting System and it is estimated that the listening audience is about 6,500,000. The first week there were 3,000 requests for our follow-up leaflets. The appropriation for the program ends in February, and Dr. Studebaker is eager to have the President's attention drawn to the need of continuing such appropriation until the end of the series.

Will you send us a copy of any letter you may send?

Sincerely yours,

Rachel Davis-DuBois
Director
